Course Description

In this course, we explore the dynamics of social problems including complex issues such as inequality, poverty, crime, racism, discrimination, economic recession, labor market distribution, gender inequality, and many others. We could spend the entire semester on any one of these topics—some spend entire careers on just one of them. The primary purpose of this survey course is to think about the major causes and consequences of social problems in the United States with some cross-national comparisons and to think about the construction and reproduction of social problems as a category of sociological analysis and research. We will learn to understand how social problems go far beyond personal issues, and how we try to solve them says a lot about the time and society we live in, particularly during the current moment of vast social changes within the global economy. We will utilize a social conflict perspective to study the definition, sources, distribution, consequences of and responses to social problems. Using a critical lens, we will explore how inequality produce and sustain social problems.

Required Text

This course uses **one** prominent textbook that introduces students to the major social problems within American society and globally. The readings supplement the lectures; you are expected to engage with both the lectures and readings accordingly on your exams. Please purchase the e-version of this textbook: **Eitzen, D. Stanley, Maxine Baca Zinn, and Kelly Eitzen Smith. 2014. Social Problems, Census Update, 13/E. New York: Pearson**

*Please note to get the 13th edition, published in 2013. You can buy the online e-version on amazon with a kindle app. It will look exactly like the hard copy. You can also buy the hard copy, which is the exact version as the online version.

Course Hours

The course has 20 class sessions in total. Each class session is 120 minutes in length. The course meets from Monday to Thursday for five weeks.

Attendance

Summer school is very intense and to be successful, students need to attend every class. Occasionally, due to illness or other unavoidable circumstance, a student may need to miss a class. UIBE policy requires a medical certificate to be excused. Any unexcused absence may affect the student's grade. Moreover, UIBE policy is that a student who has more than 1/3 of the class in unexcused absences will fail the course.

Academic Honesty

Students are expected to maintain high standards of academic honesty. Specifically, unless otherwise directed by the professor, students may not consult other students, books, notes, electronic devices or any other source, on examinations. Failure to abide by this may result in a zero on the examination, or even failure in the course.

Students are also expected to adhere to appropriate scholarly conventions in essays and research papers. This class includes writing assignment(s) in which students must give credit to all outside sources used by means of citations and a bibliography. Failure to do so may result in a zero on the paper assignment, or even failure in the course.
