COURSE EXPECTATIONS

Classroom instruction is a principle component of the educational process. Students and faculty have a mutual responsibility for contributing to the academic environment of the classroom. Consistent class attendance and participation in classroom activities are essential. Students are expected to attend all classes.

Per federal regulations, students are expected to engage in two (2) hours of study outside of class for each semester hour in class. For this five week 4-credit course, this reflects 50 hours of classroom time and 100 hours of out-of-class time.

Late assignments will be accepted but are subject to a 10% penalty for each day late. Missed exams will be given a grade of zero. Make up exams will only be allowed if there is written documentation that the student was incapable of taking the exam due to an illness or emergency. If a student has a known conflict, such as a religious observance, then arrangements should be made with the instructor the week before the exam/assignment for an alternative completion date.
