ECON 105 Macroeconomics

Term: June 15 - July 16, 2020

Instructor: Robert Rebelein

Home Institution: Vassar College

Email: rebelein@vassar.edu

Class Hours: Monday through Thursday, 120 minutes each day (2,400 minutes in total)

Office Hours: TBD

Discussion session: 2 hours each week

Total Contact Hours: 64 contact hours (45 minutes each, 48 hours in total)

Location: WEB

Credit: 4 units

Course Description:

This course explores the fundamental concepts of Macroeconomics – the study of aggregate economic quantities such as inflation, unemployment, GDP, interest rates, and money. These relate to each other through “business cycles” – irregular ups and downs in the U.S. and world economies. We will also look at the ways in which governments may seek to manage an economy: the tools of monetary and fiscal policy.

The primary objective of this course is to provide you with a working knowledge of the basic terms and concepts of macroeconomics. Increasing your understanding of economics will enable you to make better, more informed decisions throughout your life. A secondary course objective is to familiarize you with current and recent conditions in the global economy and to help you understand more about the implications of those conditions. Throughout the semester, current data from China and the U.S. will be used to provide specific examples that will help solidify the concepts discussed in class. The course topics will be connected to current events as appropriate. Topics also will include the measurement and explanation of aggregate economic performance, monetary and fiscal policies, business cycles, international trade, capital flows, and exchange rates.

Course Goals:

A student who satisfactorily completes this course should:

1. Understand the basic terms and concepts of macroeconomics
2. Understand how aggregate economic activity in a country is evaluated
3. Understand fiscal and monetary policy including their roles and applications

4. Be able to understand and critique articles in the press on macroeconomic issues.
5. Have a basic familiarity with current and recent macroeconomics conditions in the Chinese, U.S., and global economies.

Required Textbook:

Macroeconomics, by McConnell, Brue, and Flynn, 20th edition, published by McGraw-Hill Irwin, 2014 (ISBN: 0077660773). This text is available in a Kindle edition.

Grading Policy:

Grades for this course will be based on the following:

- 30% Midterm exam
- 50% Final exam
- 20% Homework Assignments (1 each week)

Grading Scale:

Grades will be determined on a relative scale with the average score being the border between a B and a B-. Details will be discussed in class.

A	90-100	C+	72-74
A-	85-89	C	68-71
B+	82-84	C-	64-67
B	78-81	D	60-63
B-	75-77	F	below 60

Class Rules:

Students are expected to:

- *Complete the day's required reading and assignments before class.*
- *Review the previous day's notes before class; make notes about questions you have about the previous class or the day's reading.*
- *Complete required written work on time.*

Tentative Course Schedule:

The planned schedule below may be modified to suit the interests or abilities of the enrolled students or to take advantage of special opportunities or events that may arise during the term.

Dates	Topic	Readings
Days 1-3	Introduction to Economics	Chapters 1-3
Day 4	Measuring Economic Output	Chapter 6, 7

Day 5	Economic Growth	Chapter 8
