Instructor: Yue Yu

Home Institution: China University of Political Science and Law

Office Hours: TBA

Email: TBD

Class Hours: Monday through Friday, 120 minutes each day (2,400 minutes in total)

Discussion Session: 2 hours each week

Total Contact Hours: 64 contact hours (45 minutes each, 48 hours in total)

Credit: 4 units

Course Description:

Psychology is the study of human behavior, cognition, and emotion. This course is designed to provide an introduction to the field of psychology. It will cover basic concepts and research findings in the areas of history, experimental methods, neuroscience, consciousness, human development, memory, perception, and learning. In this course we will discuss psychology as a science emphasizing recent and classic empirical findings and theories. Please be aware that this course will cover a great deal of material in a short amount of time. Be prepared to devote at least two hours outside of class each day to the readings.

Required Text:

Myers & DeWall (2018). **Psychology, 12th edition**. New York, NY: Worth Publishers.
ISBN-10: 1-319-05062-X; ISBN-13: 978-1-319-05062-7

You will be expected to complete each day's reading assignment prior to each lecture. Lectures will cover some (but not all) of the main points in the readings but lecture will primarily provide material in addition to the text. You are responsible for both the textbook material and the lecture material. In some cases, it may be difficult to follow the lecture if you have not completed the assigned reading prior to the lecture. Please keep up with the readings as this course will move very quickly, and you will fall behind if you leave the readings for the weekends.

Course Hours:

The course has 20 class sessions in total. Each class session is 120 minutes in length. The course meets from Monday to Friday, from October 26th to November 20th, 2020.

You are expected to attend each class. If you miss a class you will be at a serious disadvantage

and you will still be responsible for the material from lecture that you missed. To learn the material, obtain the lecture notes from at least one classmate, and then see the professor during office hours. Should you suffer from an extended uncontrollable absence, we can arrange a medical withdrawal from the course.

Grading Policy:

You will be graded on three exams: Midterm #1 (worth 20%), Midterm #2 (worth 35%), and a final exam (worth 45%). The exams will be a combination of both short answer questions and multiple-choice questions. You will be given many examples of the multiple-choice questions and answers throughout the semester at the start of each lecture. This will help you study for each exam.

The exams are cumulative (e.g., though Midterm 2 will emphasize the middle portion of the course, answering some questions correctly will require that you have an understanding of the information from the first part of the course). All exams will cover material presented in the text and lectures (i.e., some material that you will be tested on will only be discussed in lecture, some material will only be described in the text, and some material will be covered in both lecture and the text). The exams will include both objective questions (e.g., multiple choice) and short answer questions (e.g., defining terms, explaining theories, and giving examples).

You will receive numerical grades for each of the exams. Your final grade will be the cumulative score of each quiz and exam multiplied by its percentage of weight.

Grading Scale:

Assignments and examinations will be graded according to the following grade scale:

A	90-100	C+	72-74
A-	85-89	C	68-71
B+	82-84	C-	64-67
B	78-81	D	60-63
B-	75-77	F	below 60

Academic Honesty:

Academic dishonesty includes any effort to take credit for work you did not do. Academic dishonesty includes cheating on tests by trying to copy the work of a fellow student or by attempting to use unauthorized sources such as notes, cell phones, or other electronic devices during exams. Plagiarism is also a form of academic dishonesty. Although we do not have writing assignments for this course, please be aware that plagiarism (failing to cite sources appropriately) is considered a serious violation of standards. If our staff detects academic dishonesty of any sort you will receive a failing grade for the assignment in question.

Course Schedule:

Date	Class	Topic	Assigned Readings
Day 1	1	Introduction & History	Prologue
Day 2	2	Scientific Method and Measurements	Chapter 1
Day 3	3	Scientific Method and Measurements	Chapter 1
Day 4	4	Brain and Behavior	Chapter 2
Day 5	5	Brain and Behavior	Chapter 2
Day 6	6	Midterm #1	No readings
Day 7	7	Consciousness: Drugs and Sleep	Chapter 3
Day 8	8	Sensation and Perception	Chapter 6
Day 9	9	Sensation and Perception	Chapter 6
Day 10	10	Development	
Day 11	11	Review for Exam	
Day 12	12	Midterm #2	No readings
Day 13	13	Human Memory	Chapter 8
Day 14	14	Human Memory	Chapter 8
Day 15	15	Learning	Chapter 7
Day 16	16	Learning	Chapter 7
Day 17	17	Positive Psychology	Chapter 12 (only pages on positive emotions)
Day 18	18	Positive Psychology	Chapter 12 (only pages on positive emotions)
Day 19	19	Review	No readings
Day 20	20	Final Exam	No readings

During the COVID-19, the course could be moved to online delivery format. We will make the final decision before October 12,2020
